

WOODFORD

Mild Climate Wall Hydrant with Integral Water Supply Stop And Modular Box

MB221•MB224•MB226

The MB221, MB224 & MB226 are water supply boxes with an integral water supply stop that allows for servicing of the valve at the hydrant without shutting off the building water supply. The boxed hydrants are intended for irrigation purposes and use in interior or exterior applications where freezing temperatures do not occur.

FEATURES:

- Modular Box System
- Box made out of high impact and non-degradable composite material
- Replaceable 14 Ga 304 Stainless Steel Door & Fascia
- Door and Fascia replaceable without removing box or hydrant
- Standard Tee Key or Optional Cylinder Lock
- 3/4" male hose nozzle
- 1/2-14 FPT Inlet
- Red brass head
- Integral water supply stop
- EPDM packing and seats
- Spring loaded door for easy access
- Includes both polycarbonate handle and metal tee key with tamper resistant lock shield
- Max Rated Pressure: 125 p.s.i.
- Max Rated Temperature: 120° F

SPECIFICATIONS:

MB221: Offers No Anti-Siphon Protection

MB224:
NIDEL® 34HF Anti Siphon Vacuum Breaker

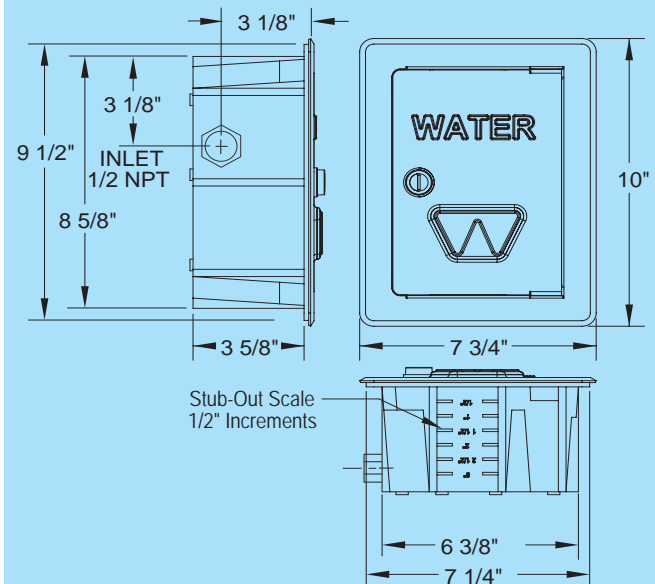

- ASSE 1011, CSA, IAPMO   
- No spray back

MB226:
50HF dual check Backflow Preventer

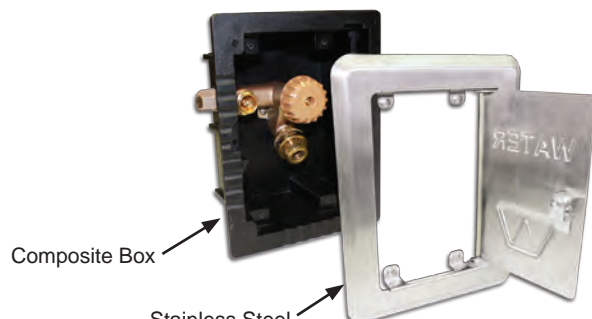

- Patent #8,042,565 and patents pending
- ASSE 1052, IAPMO  
- Field Testable
- Two Independent Check Valves
- Drains automatically when hose is removed
- No spray back
